Education

Vellore Institute of Technology

B. Tech in Computer Science with Specialization in Data Science

CGPA: 9.49/10, Ranked 9th & Awarded with a **Merit Scholarship** in Sem IV

Aug 23 - July 27

Vellore, Tamil Nadu

Chirec International School

Achieved **1st rank overall & in Science** in AISSCE

Percentage: 98.2% & Received a **Gold Medal** at school level

June 21 - Feb 23

Hyderabad, Telangana

Projects

Restaurants Rating Predictor [↗](#)

- Built an ML pipeline on **9,551 restaurants** with **21 features**, performing preprocessing, encoding, scaling, and an 80/20 train-test split.
- Benchmarked **Linear Regression, Decision Tree, Random Forest, SVR**, and ensemble approaches.
- Achieved best performance using **AdaBoost with GridSearch**, reaching **MAE = 0.366** and **RMSE = 0.455** on test data and deployed predictions via an interactive **Streamlit** application.

Deep Learning & EDA on Wine Datasets [↗](#)

- Trained a neural network on **4,547 wine samples** with physicochemical features after normalization and preprocessing.
- Achieved **82% test accuracy**, with training accuracy reaching **82.6%+** after **20 epochs**.
- Evaluated model generalization using **hold-out validation**, analyzed loss/accuracy convergence & used visualization and correlation analysis to guide feature preparation and modeling choices.

Analysis on CSR Datasets [↗](#)

- Conducted comprehensive EDA on large **corporate social responsibility** datasets to uncover patterns and performance indicators.
- Developed interactive **Power BI** dashboards enabling intuitive stakeholder exploration of CSR metrics.
- Cleaned, transformed data using **Pandas**, plotted trends with **Matplotlib & Seaborn**.

Work & Experience

Adani Enterprises & Ltd - Analytics & AI Intern

May 25 - July 25

- Authored a **white paper** explaining the architecture and optimization logic of the **Vessel AI system** for internal stakeholders.
- Integrated and prepared data from **PDT (2.6K+ rows)**, **SAP systems (3.9K+ rows)**, and **CSI sources**, analysing **6.6K+ operational records** across **56 attributes** through cleaning, validation, and exploratory analysis.
- Built interactive **Power BI dashboards** that converted complex metrics into leadership-ready KPIs, enabling faster, data-driven decisions and eliminating manual reporting.

Technical Skills

Languages: Python, Java, C, C++, JavaScript, TypeScript, SQL

Web & Frontend: HTML, CSS, Bootstrap, React.js, Tailwind CSS

Data Science & Machine Learning: Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn, TensorFlow, Streamlit

Tools & Platforms: Power BI, MySQL, AWS, Docker, Git, MS Excel, Figma, Canva

Patents

Real Time Security Analysis for AI - Generated Code [Patent ID: 202641027876]

March 26

- An IDE-integrated platform that detects and fixes vulnerabilities in AI-generated code using static analysis and ML, with adaptive, context-aware remediation.

Extracurriculars & Achievements

Purchase Coordinator, Gravitas'25: Coordinated procurement & logistics for 150+ events at Gravitas'25.

Mozilla Firefox Club & IEEE-CS Chapter at VIT, Vellore: Core Member of the Design & Management Domain

Cognitive Exchange Advanced Debate Program: Secured 1st Place at the Final Competition.
